

MRIGlobal CLIA Laboratory

CAP Accredited

Since its founding in 1944, MRIGlobal has brought practical solutions to technological challenges facing government and industry, applying scientific expertise to the full spectrum of research and development. As an independent, not-for-profit institute, MRIGlobal delivers innovative thinking and unbiased results to its customers.

MRIGlobal's CLIA laboratory, located in central Florida, is housed within the MRIGlobal Palm Bay Campus. Established in 1999, the Palm Bay laboratories and staff are dedicated to the development, evaluation, and validation of molecular diagnostic assays. MRIGlobal offers a highly experienced team of scientists dedicated to developing and validating diagnostic assays for performance in accordance with FDA requirements.

Services Offered:

- Molecular diagnostic assay development
- Validation laboratory
- Specialty laboratory services
- Clinical trials/studies for new molecular diagnostic tests

Unique Value:

- Smooth technology transfer for facilitating timely FDA approval
- Diagnostic development under CLIA-regulated environment
- Quality assurance program provides oversight for every project
- Dedicated facilities

Expert Staff:

- Dedicated staff for pre-submission activities
- Licensure for performing clinical laboratory services
- Highly trained Molecular Biologists, Geneticists, Microbiologists, and Immunologists
- Ph.D-level scientists with experience in diagnostic assay development

MRIGlobal

MRIGlobal is a not-for-profit organization that performs contract research for clients in business, industry, and government. Founded in 1944, MRIGlobal is one of the nation's leading independent research institutes. We conduct programs in the areas of life sciences, agriculture and food safety, national security and defense, engineering, and energy research.

Other Quality Programs:

- GLP/GMP
- ISO 17025
- ISO Guide 34

Related Product Development Services:

- Feasibility studies
- Protocol design and validation
- Manufacturing process design
- Limited scale-up for manufacturing
- Technology transfer for manufacturing
- Instrument evaluation & validation studies

MRIGlobal's CLIA Laboratory is located on Florida's east central coast, about 60 miles east of Orlando and Lake Nona's Medical City.
