## COLLABORATIVE SOLUTIONS FOR IMPROVING BIOSAFETY

MRIGlobal's cross-disciplinary team of biosafety, science, and engineering experts works collaboratively with clients to grow their biosafety programs into a right-size solution to address the evolving needs of their scientific programs.

### OUR FULL SERVICES INCLUDE:

#### LABORATORY STAND UP & OPERATIONS

- Design consultation
- Equipment recommendations
- Equipment IQ/OQ
- Containment laboratory annual verification support
- Training program support

#### SAFETY PROGRAM CAPACITY BUILDING

- New BSO assistance
- Institutional biosafety committee training/consultation
- Plan/manual/SOP development

#### SAFETY PROGRAM VALIDATION

- Site assessment
- Program review
- Audit preparation

### ABOUT MRIGLOBAL

Founded in 1944, MRIGlobal is an independent organization performing customized contract scientific and engineering research, as well as management and operations, for government and industry around the globe.

#### FOR MORE INFORMATION:

Global  
Engagement

**BIOSAFETY CAPABILITIES**

## OUR TEAM

- ABSA International-credentialed biosafety professionals with 50+ cumulative years of A/BSL-1, -2, -3, and -4 biosafety program development and management experience in the U.S. and abroad
- Program managers with research backgrounds, biosafety credentials, and high containment experience
- Diverse in-house technical specialists including certified medical laboratory scientists and quality auditors; scientists specializing in research and diagnostics with RG 1-4 pathogens; and mechanical and electrical engineers

## OUR EXPERTISE

- High containment laboratory stand up and operations
- Research and diagnostic laboratory stand up and operations
- Biosafety program establishment and maturation
- U.S. and WHO biosafety standards and guidelines
- ISO 9001, 15189, and 17025 compliance
- Quality management of biosafety programs
- Vivarium biosafety
- Incident and emergency response planning
- Laboratory biosecurity
- Select agent regulations
- Field biosafety

## OUR SERVICES

- Biosafety program start-up
- Biosafety program assessment and verification
- Biosafety program documentation development/augmentation
- Facility support staff and technical personnel training
- High containment laboratory start-up training
- Audit and inspection preparation
- Laboratory design review of new/renovated facilities
- Institutional biosafety committee training/consultation
- Risk assessments
- Emergency response planning
- Exercise and drill design and execution
- Equipment selection IQ/OQ
- Support for containment laboratory annual verification
