## DELIVERING SOLUTIONS IN BIOSURVEILLANCE, BIOSAFETY, BIOSECURITY, AND EMERGING INFECTIOUS DISEASES

Our multi-disciplinary team works collaboratively with stakeholders to enhance health and security worldwide.

### OUR GOALS

- Improve international laboratory capacity, disease surveillance, and outbreak response
- Deter biological threats
- Reduce risk and adverse impacts to the economy and environment
- Build cooperative research partnerships
- Develop local national specialists

### ABOUT MRIGLOBAL

Founded in 1944, MRIGlobal is an independent organization performing customized contract scientific and engineering research, as well as management and operations, for government and industry around the globe.

Engagement

PROGRAM CAPABILITIES

[www.mriglobal.org](http://www.mriglobal.org)

## OUR EXPERIENCE

- Over 80 years collective experience executing international capacity-building programs
- Proven performance in 10+ countries in Europe, Central Asia, and Africa
- Successful coordination of 19 collaborative international research projects
- National laboratory standup in Georgia, Uzbekistan, Kazakhstan, Guinea, and Liberia
- Ebola virus outbreak response support in Sierra Leone, Guinea, and Liberia

## OUR EXPERTISE

### LABORATORY STANDUP/ CAPACITY BUILDING

- Design consultation and equipment recommendations
- New technology integration, IQ/OQ
- Quality management system development, training, and external audit

### TRAINING

- Technical training and competency assessments
- Biosafety and biosecurity
- Operations and maintenance staff training
- Biosafety cabinet certification training

### BIOSAFETY PROGRAM CAPACITY BUILDING

- Program assessment/ verification
- Biosafety officer training and mentorship
- Biosafety plan, manual, and SOP development
- Emergency response planning

### COOPERATIVE RESEARCH SUPPORT

- Project design and execution
- Integration between international partners
- Manuscript and poster development

### LABORATORY SYSTEM BUILDING

- System assessment
- Gap assessment and recommendations

### TEST & EVALUATION

- TTX/FTX design & execution
- Design and execution of Operational Demonstrations for IOC/FOC
- Transition and Turnover

## OUR TEAM

- Experts with terminal and diverse degrees, including MBA, MS, MPH, PhD, RN
- Certified professionals in project management, biosafety, medical laboratories, public health, and quality management
- In-house experts with extensive experience in biotechnology; microbiology; molecular, serological, and clinical diagnostics; biosafety and biosecurity; core laboratory operations; quality management; engineering; and field work
- Conversant in U.S. and WHO biosafety standards and guidelines for animal and biosafety level-1, -2, -3, and -4 facilities
